EasyPort MecLab

Problem (public)

Why do problems occur in the communication between Easyport and MecLab on Windows 10?

Solution (public)

On Windows 10, there are problems with the drivers which cause additional issues within the communication of Easyport and MecLab.
Therefore we would ask you to install both the setup_usb_2.15.zip ([1]https://ftp.festo.com/Public/DIDACTIC/usb_driver/) and Fluidsim MecLab 6 ([2]<https://ip.festo-didactic.com/InfoPortal/MecLab/Software/EN/>) .
