*Keywords*

ciros; setup;uninstall;silent

*Problem (public)*

CIROS can be installed silently, but what about uninstalling it silently?

*Solution (public)*

Execute the uninstall process which consists of the executable as well as the configuring XML file with /S.

Example command line:
"C:\Program Files\CIROS\CIROS Studio Festo 7\Uninstall\uninstall.exe"
/U:"C:\Program Files\CIROS\CIROS Studio Festo 7\Uninstall\uninstall.xml" /S.
