### Keywords

Festo LX course

### Problem (public)

How can one transfer data to another teacher in LX?

### Solution (public)

An organization administrator can do it by following these instructions:

- In the Organization page, under "Members", click the option button at the right of the teacher and select "Edit Role";
- In the "Edit User Role" popup, unselect the "Teacher" role from the user, and the popup will ask you to transfer the data to another teacher;
- Search for the name of the new teacher, select it then click save;
- The data is now transferred to the new teacher.
