FluidSIM4 support version 4

Problem (public)

Solution (public)

Windows has stopped supporting Windows 7 in January 2020, making all updates and enhancements not available anymore. FluidSIM 4 is only released for Windows 7, so the complete support for FluidSIM 4 ended on 31.12.2019.

Customers that currently are working with version 4 still have the possibility to update to FluidSIM 5 at an update price.
